Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 22, 23, 25-28, 31, 32, 35, 37, 38, 40-43, 46, and 47 are rejected under 35 U.S.C. 102(b) as being anticipated by Wickersheim (US 4,560,286). Please refer to the previous office action for the text of the rejection.

Claims 20, 22-28, 31, 32, 35, 37-43, 46, and 47 are rejected under 35 U.S.C. 102(a) as being anticipated by Allison et al (US 5,730,528). Please refer to the previous office action for the text of the rejection.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21, 29, 30, 33, 34, 36, 44, 45, 48, and 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allison et al (US 5,730,528). Please refer to the previous office action for the text of the rejection.

Art Unit: 1775

Claims 21, 29, 30, 33, 34, 36, 44, 45, 48, and 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wickersheim (US 4,560,286). Please refer to the previous office action for the text of the rejection.

### *Response to Arguments*

Applicant's arguments filed October 18, 2004 have been fully considered but they are not persuasive. Applicant argues that the term "thermal barrier coating" has a well-understood meaning in the art, and provides references referring to such coatings. The instant specification does not offer a definition of the term "thermal barrier coating", and the claims must be given the broadest reasonable interpretation. The coatings of Wickersheim and Allison may be considered coatings with thermal barrier properties in that they are comprised of materials that provide at least some thermal protection, and are coated onto the underlying substrate. However thin the coatings may be, they would provide at least *some* protection to the underlying substrate. The claims do not qualify the thermal protection provided, and no clear definition is provided in the instant specification. Therefore the rejection is held.

### *Conclusion*

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

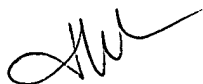

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
